PROJECTS

Electric Vehicle Population Dashboard | Excel, Power Query, Pivot Charts | GitHub Jun' 25 – Jul' 25

- Built a data-driven Electric Vehicle Population Dashboard using Excel PivotTables, charts, and slicers for interactive insights.
- Analyzed EV trends, geographic distribution, top manufacturers/models, and CAFV eligibility from a 230k+ record dataset.
- Designed clean user-friendly dashboard highlighting KPIs, growth patterns, and market dominance (e.g., Tesla)..

Advanced Disk Scheduling Simulator | Python, Tkinter, Matplotlib | GitHub Mar' 25 – May' 25

- Built an advanced Disk Scheduling Simulator implementing six algorithms (FCFS, SSTF, SCAN, C-SCAN, LOOK, C-LOOK) with real-time visualization and step-by-step execution
- Designed an interactive GUI using Tkinter + Matplotlib, supporting comparison mode, random request generation, 3D views, theme switching, and performance metrics calculation
- Added export functionality to generate detailed PDF/CSV reports including head movement, seek time, and algorithm efficiency analysis.

Appointment Booking Platform | MongoDB, ReactJS, NodeJS | GitHub | Live Aug' 24 – Dec' 24

- Developed a comprehensive medical appointment and medicine management platform, allowing users to book appointments and order medicines, reducing manual processes by 50%.
- Crafted a user-friendly interface for patients, doctors, and admin, improving usability and streamlining appointment scheduling and medicine delivery.
- Integrated MongoDB and Cloudinary for secure storage and fast retrieval of user data and medical images and implemented Online payment and order verification for reliable transactions.

TRAINING

Data Analytics Essentials | LPU Jun' 25 – Jul' 25

- Completed Summer Training in Data Analytics Essentials covering SQL, Python, Tableau, and Power BI.
- Gained hands-on experience in data cleaning, EDA, and writing optimized SQL queries.
- Built interactive dashboards and visualizations using Tableau and Power BI to derive actionable insights.

CERTIFICATES

- Data Analytics Essentials: Power BI, Tableau | LPU Jul' 25
- Cloud Computing| NPTEL April' 23
- Alpha (DSA with Java) | Apna College Nov' 24

ACHIEVEMENT

- Solved 50+ coding problems on LeetCode and HackerRank enhancing algorithmic skills. Nov' 25
- Qualified for Stage 2 of the 'Build and Connect' challenge in the Adobe Hackathon, showcasing innovative thinking and team collaboration. Aug' 25
